PROFILE

Dedicated web developer with hands-on experience in building responsive websites and e-commerce projects using HTML, CSS, Bootstrap, and JavaScript. Skilled in creating user-friendly designs and functional interfaces. Currently enhancing my skills through the Advanced Diploma in Software Engineering (ADSE) and recently started learning WordPress to expand my expertise. A proactive learner with a strong passion for crafting effective and visually appealing web solutions

PROJECTS

1 Jan 2025- 4 Jan 2025

Practice Projects| Self Learning

Admin Panel

- Designed an admin panel interface using HTML, CSS, and JavaScript with a clean and intuitive layout.
- Added interactive elements to enhance user experience and ease of navigation.
- Focused on creating a visually appealing and responsive design for better usability.
